

Gun & Rifle Brushes

Manufacturing Twisted In Wire Brushes for Over 45 Years.

A Division of Malin Company

Cotton Swab

Cotton swabs provide maximum absorbency and smoothness.

Nylon

The chemical resistance of nylon is ideal for light cleaning jobs with chemical solutions.

Phosphor Bronze

Excellent for cleaning powder and lubrication residue.

Stainless Steel

Outstanding for removing built-up powder residue and burn marks.

Brushes Corp. manufactures a variety of shotgun, pistol and rifle cleaning brushes. Typical materials include brass, phosphor bronze, stainless steel, nylon, cotton and galvanized steel. We supply both standard and custom engineered brushes with small minimum order requirements.

For over 45-years, Brushes Corp. has specialized in the development and manufacturing of twisted-in wire brushes. We offer packaging, private labeling and bar-coding services. If you are looking for ways to lower your costs or reduce inventory, call us. We offer the industry's most competitive pricing and lead-times!
